

## MAKER Connect – Make a Digital Accessory

More and more people are interacting with mobile technology on a daily basis. They use their devices for a number of different things such as telephone calls, surfing the web, playing games, watching movies, and listening to music. With this, they also face many challenges.

Look at the images below.

- What can you see?
- What problems can you see?
- How did these problems occur?
- What new design opportunities are there?
