

Simple Machines – Maker Activity Self-Assessment
Developing and Using Models

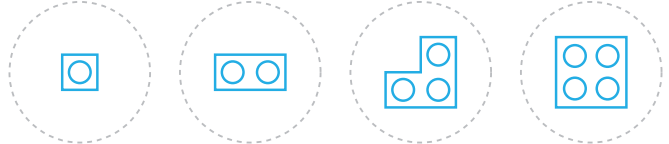

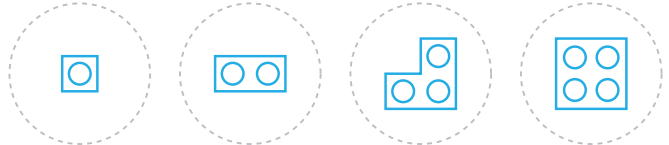

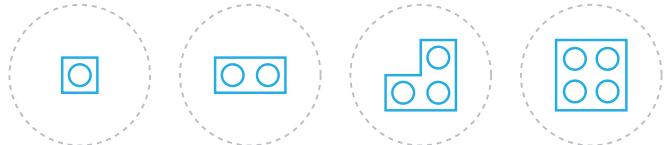

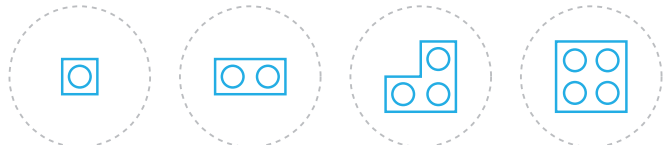

Make a Wearable

Student Name: _____

Date: _____

How did you do?

Directions: Circle the brick that shows how well you did. The bigger brick, the better you did.

We built a model based on one or more design ideas.	
We joined two or more ideas to make our design better.	
We made our idea better after we tested it.	
We could tell the class how we made our model better.	

Describe what you did (Draw, write or add a photo):

Tell someone about the problem, you solved...
