

A large track template for LEGO Duplo. It consists of a central grey ramp section and two side sections. The central ramp is divided into three horizontal segments: a light grey top segment, a medium grey middle segment, and a light grey bottom segment. On either side of the ramp are two vertical columns of 10 circular holes each, for a total of 40 holes. The side sections are decorated with various patterns of flowers and grass tufts. At the top left, there is a small icon of a LEGO Technic connector. At the bottom left, there is a scissors icon indicating where to cut. The entire track is bounded by two horizontal dotted lines.
