

A large rectangular area divided into four vertical sections by dashed lines. The top and bottom edges are marked with dashed lines and a pair of scissors icon, indicating where to cut. The second and third sections from the left contain two vertical columns of 10 circles each, representing the holes of LEGO Technic bricks. The central section is shaded gray and divided into three horizontal bands of different shades. The rightmost section contains a collection of line-art icons: flowers and stylized grass blades, arranged in a pattern that suggests how they would be placed on the corresponding holes of the bricks.
